PREFACE

Cullum's Biographical Register was initiated by Brevet-Major-General George W. Cullum as a record of the past services of Academy graduates and "as a future stimulus to still higher military achievements and civil usefulness in the service of the nation." Under the provisions of General Cullum's will, this book deals with the records of Academy graduates only. It gives concisely, but fully and accurately, not only the leading events in the life of each graduate, from his entrance to the Academy until his death, but in addition his date and place of birth, state from which appointed, promotions, stations and duties, and the civil history and addresses of those who have left the service.

Volumes I, II and III were completed by General Cullum in 1867 after many years of persevering toil. In 1878 these volumes were revised and extended and printed in the second edition. They were similarly revised and extended by General Cullum in 1890—the third edition. Because of the growing expense as well as the unwieldiness of the book, Volume IV, published in 1900, contained only the extensions of those records that had previously been published and added the records of those who had graduated since the publication of the preceding volume. Volumes V and VI as well as this Volume, VII, are of similar form.

That the Academy's graduates have worthily written their names in our country's history can scarcely be denied by one who peruses the pages of Cullum's Register. They have materially aided in successfully conducting five great wars, extended the national domain, helped to preserve the Union, advanced the frontiers of civilization, built the Panama Canal and other great engineering projects, improved our harbors, lakes, and rivers, defined our boundaries, bound our states and territories with a net-work of railroads, furnished one President, several Cabinet members, numerous Members of Congress, Ambassadors, Ministers, Governors of States, as well as many Presidents of Colleges, Professors and Judges, and held countless other important positions in civil life.

The labor of compilation and correction of these records has been immense. Every available source of information has been used in an effort to make each record complete and each detail correct, yet it is realized that even though the greatest care has been taken, errors will remain. An effort has been made to leave each record in the form submitted in order that it may be satisfactory to those directly concerned; however, some alterations have been made in order that the records maintain a general uniformity as to style and material.

The undersigned is indebted to the graduates as a whole for their co-operation in the editing of this book, and particularly to the late Colonel Wirt Robinson who for seventeen years labored so unselfishly on these records, edited Volume VI, and initiated the records for this volume.

The country at large may well be proud of the records here presented and no graduate can fail to find a new pride and gratitude to his Alma Mater in perusing them.

William H. Donaldson.

West Point, New York,
March 1, 1931.

NOTE

In the following pages a † after the name of a graduate signifies that the graduate is dead. If the death occurred before 1890, it is recorded in the third edition of the Register (1891); if between 1890 and 1900, in the fourth edition (1900); if between 1900 and 1910, in the fifth edition (1910); if between 1910 and 1920, in the sixth edition (1920); if the death occurred before 1920, but was not known till after this date, it is noted in this volume.

An * after the name of a graduate usually refers to a foot-note giving the name of the graduate's father. The names are printed in the text in the order of graduation and class rank. In the Index the names are arranged alphabetically.

It is requested that graduates who consult this volume will communicate to the Secretary of the Association of Graduates, at West Point, any additions or corrections which ought to be made in a subsequent edition.

This is the Supplement, Volume VII, 1920-1930, to the Biographical Register of the Officers and Graduates of the U. S. Military Academy at West Point, N. Y., since its establishment in 1802, by Brevet-Major-General George W. Cullum, Colonel of Engineers, U. S. Army, Retired. Edited by Captain Wm. H. Donaldson, C. A. C.

"For extraordinary heroism in action near Vierzy, France, July 18, 1918. In order that he might personally direct the attack, General Ely attempted to enter Vierzy which was not yet cleared of the enemy; he was fired on at short range by enemy machine guns in the town. He then personally organized and directed an attack which resulted in the capture of the town and in the advance of the lines well beyond. General Ely's indomitable bravery, disregard for his own safety, his devotion to his men, and his frequent presence with them in the front line, inspired them to deeds of great courage and enabled the troops to take the town, despite strong enemy resistance made by vastly superior numbers."

EDITOR'S NOTE: Shortly after assuming the Superintendency of the United States Military Academy, General Smith saw the necessity for expanding the limits of the reservation of West Point in order to secure an adequate water supply and to provide the Academy with its own airdrome and suitable maneuver and target areas. Through his efforts and perseverance he secured the passage of the Act of Congress (Public No. 795, 71st Congress) approved Mar. 3, 1931, which provided for the purchase of approximately 15,000 acres of land to the south and west of the reservation proper.

DISTINGUISHED SERVICE CROSS.

"For extraordinary heroism in action near Manila, Philippine Islands, Feb. 5, 1899. During the attack by two companies of the 14th Infantry on blockhouse No. 14, and adjacent trenches strongly held by insurgent forces, when the commanding officer was mortally wounded, the advance was checked and the troops were partially demoralized in the face of a heavy concentrated fire from the front and both flanks, Lieutenant Miles assumed command, ordered the advance to continue, and went along the line with utter disregard of the hostile fire and urged his men forward. Then, with exceptional gallantry and the highest qualities of leadership, he dashed forward, many yards ahead of his men calling on them to follow, and drove the enemy from their position. His splendid example of personal heroism, courage, and coolness furnished the needed inspiration to the wavering command and resulted in the successful accomplishment of a seemingly impossible attack."

"For the following act of extraordinary heroism in action near Septsarges, France, Sept. 26, and near Bois-du-Fays, France, Sept. 28, 1918, while serving as colonel, 39th Infantry, 4th Division. On Sept. 26 Colonel Bolles personally directed the assaulting battalion of his regiment when the line was temporarily held up by hostile fire, leading the attacking troops forward to their objective. After reaching the objective, terrific hostile fire caused many casualties, and the line was beginning to waver, when Colonel Bolles assisted in the reorganization of the line, and by his personal example of courage and fearlessness encouraged his men to hold, in the face of the withering machine-gun and artillery fire, until the flank division had advanced abreast. On Sept. 28 he rallied his men under the sweeping fire of machine guns, minenwerfers, and artillery, and, although painfully wounded, personally assisted in the reorganization of the positions."

Awarded

DISTINGUISHED SERVICE CROSS.

"For extraordinary heroism in action at Naguilian, Luzon, Philippine Islands, Dec. 7, 1899. When the command of which he was a member was held up in the crossing of the Rio Grande de Cagayan by rifle fire of a well-intrenched enemy, and being without boats or rafts with which to cross, he hastily constructed a raft made of bamboo, strips of shelter tents, and personal equipment, and on this flimsy affair with two soldiers volunteered to cross the river. Displaying great gallantry and with utter disregard for his own safety, Lieutenant Miller crossed the river in the face of heavy rifle fire and took part in an attack which drove the enemy from the trenches and the town occupied by them, thereby making possible the further advance of the command."

Awarded Silver Star and cited "for gallantry in action against Spanish forces at Santiago, Cuba, July 1, 1898."

Awarded Ordre de L'Etoile Noire, by French government for service in France.

"For exceptionally meritorious and distinguished services. When it became evident on the morning of Mar. 8, 1929, that Mexican Revolutionary Forces, in greatly superior strength, were preparing to make a determined attack against Mexican Federal troops, who had taken up a position on the south bank of the Rio Grande, near the end of the International bridge connecting El Paso, Tex., and Juarez, Mexico, General Moseley crossed the bridge while exposed to the fire of the Revolutionary forces, conferred with the commander of the Federal forces while under heavy fire, and later passed through the field of fire to confer with the commander of the Revolutionary forces. By his initiative, prompt and forceful action, and his utter disregard of his own personal danger, under heavy fire, he succeeded in bringing about a cessation of the fire which was endangering American life in El Paso, Tex., and arranged for a conference of the Mexican commanders which resulted in the retirement of one of the belligerent groups, a cessation of fire and the restoration of peace and quiet. By this action General Moseley was chiefly responsible for relieving a delicate international situation."

"For heroism on July 11, 1926, during the explosions at the Lake Denmark Naval Ammunition Depot, near Dover, N. J., Major Ramsey, in charge of a party of eight men, entered the burning area at 6:30 a m. to search for First Lieutenant George W. Bott, Jr., United States Army, who was known to have been in the powder factory at the time of the first explosions late the preceding afternoon. Throughout the search they were in close proximity to burning magazines, and exposed to frequent explosions of large-caliber shells and small-arms ammunition. While there was still possibility of more serious detonations and at the risk of their lives they located the body of Lieutenant Bott, and with great difficulty succeeded in removing it from the wreckage to a point outside the danger zone."

COMMENDATION FOR HEROIC CONDUCT.

"For heroic conduct at Picatinny Arsenal, Dover, N. J., May 28, 1925. Major Ramsey, with utter disregard for personal safety, entered a burning building containing loaded bombs and explosives, directed and assisted in the removing of an injured civilian employee. Immediately after the rescue the building was completely demolished by detonation of burning explosives. Major Ramsey's conduct at this time is deserving of commendation and reflects great credit upon himself and the Army of which he is a member."
